STATEMENT OF RESERVES DATA AND OTHER OIL AND GAS INFORMATION

The statement of reserves data and other information is presented in accordance with NI 51-101.

The Report of Management and Directors on Oil and Gas Disclosure on Form 51-101F3 is attached hereto as Appendix "A".

Reserves as at March 31, 2022 and as at March 31, 2021

The Company had no reported reserves or future net revenue as at March 31, 2022 and as at March 31, 2021, as described below.

Non-Recognition of Reserves for Block 9 in Bangladesh

It is the opinion of the Company that reserves associated with the Company's interest in Block 9 in Bangladesh should not be recognized at March 31, 2022. Since June 2016, Petrobangla has withheld all payments for the Company's share of gas and condensate sales from the Block 9 PSC due to legal disputes between the Company and the GOB, Petrobangla and Bapex. As such, reserves for Block 9 have been excluded from the reserves information since March 31, 2017. If the situation in Bangladesh can be resolved such that payments for the Company's share of Block 9 gas and condensate sales resume on an economic basis, then reserves for Block 9 could again be recognized.

Oil and Gas Wells

The following table outlines the Company's interests in oil and gas wells in Bangladesh as at March 31, 2022:
